

Wega

The Wega is an insurance-approved wall safe, certified to EN 1143-1 Grade 1 and recessed into the wall so it sits flush and out of sight behind a picture or inside a cupboard. The range runs from 12 to 85 litres across five sizes. Every Wega is independently tested for burglary resistance to EN 1143-1 and certified by VdS and ECB•S in Germany. Building a safe into the wall also removes the attack a freestanding safe is most exposed to — being carried away whole.

CERTIFICATIONS

Burglary Grade I (EN 1143-1), tested by VdS and ECB•S Germany
